### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11, 19-20, and 27-37 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

No basis or support is found in the present specification for claims directed to 75% by weight or more. The specification is directed at page 25 recites "the total fatty acids **reached as high as 75.1%**. This recitation does not provide basis or support for any amount beyond the amount recited, including 75.5% or 76% or any amount greater than the specific amount recited. There is no indication in the specification of possession of an "An isolated arachidonic acid-containing microbial lipid containing 75% by weight or more of arachidonic acid to the total fatty acids in said lipid".

Therefore, this material constitutes new matter and should be deleted.

Claims 19 and 20 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to

Art Unit: 1651

cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

The art rejections are withdrawn in view of applicant's amendments. The rejections will be reinstated as appropriate upon removal of the new matter introduced by the instant amendment.

No claim is allowed.
